THE YMCA OF KLAMATH FALLS TO REOPEN FACILITIES AFTER 71-DAY CLOSURE DUE TO COVID-19

After closing its facilities on March 21st due to COVID-19, The YMCA of Klamath Falls will reopen its Fitness and Aquatic Center on Monday, June 1st.

The YMCA of Klamath Falls has served the Klamath Basin community since 1944, during which we have made it through many challenging times together, none perhaps as impactful for our community and our Y as this COVID crisis. We are thrilled to begin reopening our facilities, welcoming back our members and the community, and getting back to what we do best – helping everyone reach their full potential.

When we closed our facilities in March, we did so to protect the health and well-being of all our staff, volunteers, members, and participants. As we now reopen our facilities, we do so with that same commitment to keeping everyone who enters our doors safe.

The first phase of reopening will include:
- Emergency Child Care Services at our Donald Street location (beginning May 18th)
- Fitness Center (cardio, weight, limited fitness classes and gym use only) (beginning June 1st)

Additional phases of reopening will include, Pool, Sauna, Child Watch, and more! More information about these phases and modifications and what to expect when we open our doors will be made available on the Y's website: www/kfallsymca.org

We are excited to reopen our facilities to our community. More importantly, however, our Y has always been more than a building. Our Y is about people – people from all backgrounds and walks of life who come together to improve their lives, nurture their families, and strengthen their community. We are so incredibly grateful to the people who have stood by us throughout these challenging times. You were here for your community when it needed it most, and we remain here for you!
